PROFESSIONAL SUMMARY

Generative AI Engineer specializing in LLM applications, RAG pipelines, AI Agents, and Multi-Agent Systems. Experienced in building production-ready AI systems using **Python, FastAPI, LangChain, LangGraph, OpenAI, Gemini, Claude, and n8n**, with hands-on expertise in **prompt engineering, function calling, structured outputs, vector search, embeddings, and AI automation**. Experienced in developing and deploying **full-stack, containerized AI applications** with REST APIs, databases, and CI/CD.

TECHNICAL SKILLS

Programming: Python, SQL, TypeScript, JavaScript, OOP, Data Structures & Algorithms
Generative AI: LLMs, RAG, AI Agents, Multi-Agent Systems, Agentic Workflows, Prompt Engineering, Function Calling, Structured Outputs
LLM Frameworks & Models: LangChain, LangGraph, CrewAI, AutoGen, OpenAI, Gemini, Claude, Groq, Ollama
RAG & Vector Search: FAISS, ChromaDB, Qdrant, pgvector, Embeddings, Vector Search, Semantic Search
Backend & APIs: FastAPI, Node.js, REST APIs, Pydantic, API Integration
Automation & DevOps: n8n, Workflow Automation, Webhooks, API Orchestration, Docker, GitHub, CI/CD
Databases & Web: PostgreSQL, MongoDB, React, Next.js, SQLAlchemy

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern Eazotel

July 2026 – Present

- Developed a client-facing website and internal admin dashboard using **React, Next.js, Node.js, and MongoDB** for booking, customer, and operational workflow management.
- Built an **AI-powered knowledge-base automation pipeline using n8n**, automating content ingestion, processing, and knowledge-base generation to eliminate manual content entry and streamline updates.

Python Developer Intern WISHTML

June 2025 – July 2025

- Optimized **3 Python ETL pipelines** processing **500K+ daily records** from MySQL to PostgreSQL, reducing transfer latency by **40%** through batch processing and connection pooling.
- Automated Python/SQL data validation, eliminating **8+ hours of weekly QA** and resolving **12+ data-quality issues**.

PROJECTS

BusinessVerse AI – Multi-Agent Business Simulation | LangGraph, FastAPI, PostgreSQL, Redis, WebSockets [GitHub](#)

- Built a **multi-agent business simulation platform** with **5 autonomous AI agents** (CEO, CTO, CFO, CMO, COO) using LangGraph and shared state for strategic, financial, marketing, and operational decision-making.
- Developed FastAPI services with PostgreSQL, SQLAlchemy, Redis, and WebSockets for simulation state, KPI tracking, and real-time agent events; containerized with Docker Compose.

AI LinkedIn Post Generator – AI Content Automation | n8n, Gemini, Google Tasks API, Google Sheets API [GitHub](#)

- Built an end-to-end **AI content automation workflow** using **n8n and Google Gemini** to transform research notes from Google Tasks into structured LinkedIn content ideas and polished posts.
- Designed a reusable workflow with **OAuth2 authentication** and configurable prompts, demonstrating **AI workflow orchestration, LLM integration, API integration, and business process automation**.

LungCare+ – Medical AI Diagnostic Platform | ResNet-50, RAG, FastAPI, Docker [Live](#) | Dec 2025 – Feb 2026

- Fine-tuned ResNet-50 on **5,200 NIH ChestXray14 scans**, achieving **92.3% validation accuracy**, and deployed FastAPI inference APIs with **sub-200ms latency**.
- Built a RAG medical assistant using GPT APIs, FAISS, and **400+ medical guidelines** for source-cited responses; containerized FastAPI and React with Docker and automated CI/CD using GitHub Actions.

EDUCATION

Abdul Kalam Technical University (AKTU)

Lucknow, UP

B.Tech – Computer Science Engineering (AI & ML Specialization) | **CGPA: 7.8 / 10**

Sep 2022 – May 2026

- Relevant Coursework:** Data Structures & Algorithms, Machine Learning, Deep Learning, Generative AI, Data Engineering, NLP, Computer Networks, Operating Systems

CERTIFICATIONS

Complete AI Automation & Agentic AI Bootcamp with n8n

2026

Udemy

Certificate No.: UC-9f0500b7-38e4-4149-92ea-0c5f1feb28a8

RESEARCH & PUBLICATIONS

Published Research Paper (IJERT 2025–26): LungCare+: An AI-Driven Intelligent Doctor Recommendation System — CNN-based medical imaging and AI-powered healthcare recommendation research.
